Rhiannon

All about...

After graduating with a degree in Psychology from Cardiff University in June 2010, Rhiannon decided to build a career for herself as an artist, working from her studio in Ciliau Aeron, near Aberaeron. Now living in Cardiff Bay, Rhiannon sells her original work all over Wales and turns work into various products such as cards, coasters, placemats, prints and glass boards.

Using her vivid imagination and bright, vibrant colours, various sceneries are painted with a fresh and modern twist, waves being an intrinsic element of all her paintings. She mixes reality with fantasy to create magical worlds. Rhiannon hopes that her work, being so full of character and fun, will make others feel happy and will inspire others to think like her!
