

# What is PPE and why are people wearing it?

PPE stands for Personal Protective Equipment and means anything that someone might wear to keep them safe.

In school and out in the community I might see people wearing gloves, face masks or aprons. These can help the Corona virus from spreading.

If someone is wearing gloves, face masks or aprons it doesn't mean they have the virus. It just means they are being safe and protecting everyone.

People may look scary or funny wearing PPE.

If I get worried or scared about seeing people wearing PPE I can talk to an adult at home or at school.
